ANNUAL REPORT
OF THE
CEMETERY COMMITTEE.

CEMETERY COMMITTEE.

Report of Cemetery Committee.

The work of the Superintendent, Samuel Williams, for the past year, has been to the satisfaction and approval of the Committee. Herewith we submit his report, which gives the town the information desired of his work. The Cemetery Fund now amounts to \$7,204 25, a gain of \$345, and will soon amount to \$10,000, if our citizens act wisely and purchase lots and provide for perpetual care, a good thing to do while living, and make other improvements and take an interest in beautifying and to make the Cemetery one of the most attractive places in the town. The investment of the fund is made by the Town Treasurer as required by the by-laws of the town, and are: In Southbridge Savings Bank, \$3,704.25; Ware Savings Bank, \$1,000; Worcester County Institution of Savings, \$1,000; loaned on mortgage, \$1,500. Only the interest of the fund can be used, amounting last year to \$315.99. The Committee are under renewed obligations to Alva Hyde, Esq., for writing deeds, etc., without charge. For the ensuing year we recommend an appropriation of \$800.00.

Superintendent's Report.

TO THE CEMETERY COMMITTEE.

Gentlemen:—The work the past season was similar to previous years—grading, cleaning monuments, constructing new avenues, planting shrubs, trees, etc.

One needed improvement was the cleaning out of what is known as "Pleasure Pond." It was considered a nuisance in dry seasons by people living in its vicinity on account of its offensive odor. The drouth last year afforded the opportunity to do the work. The mud—two feet deep—was all removed, the pond deepened, and in some places enlarged to improve its looks: the banks given a uniform slope, bushes dug up, and the whole of the land from the hearse house to the south end of the pond has been graded, seeded, trees planted and new avenues built. A good walk surrounds the pond. The material taken from the pond was all used in grading and top dressing. What has been the roughest, is now the most beautiful part of the Cemetery.

Have built and gravelled 1,132 feet of new, and gravelled about 500 feet of old avenues. Graded lots for private parties amounting to \$81.00. The grass sold for \$10.00. Used 300 bushels of ashes on the grass. Planted over one hundred evergreen and forest trees. Commenced to grade and even up the lots on the hill, in the old part. Next season hope to continue, and, if possible, grade all that remains in old yard.

The extreme drouth the past season was very unfavorable to newly seeded lots and newly planted trees. There was no water to be had in the Cemetery, so had to go quite a distance for it, which was quite expensive. I would recommend that water be placed in the yard in a few convenient places. It can be done for a small expense.

I would also recommend that all boundary stones in future be set level with the top of the ground; all modern Cemeteries positively forbid them being set a foot above the ground. It mars the landscape and inconveniencies in keeping lots in order. Many have expressed a willingness to have theirs lowered when others will do the same. I hope all will come forward and give permission to have it done, as they are of no possible use and mar the beauty of the landscape. All fences except two have been removed. Two curbinges were taken away last season and

the lots graded to correspond with their surroundings. Curbing is expensive and useless, except in some exposed places where it is necessary to protect the lot.

I would advise that more care be exercised in putting in foundations for monuments. Some are so poorly done that monuments which have been set but a short time are getting out of shape.

To carry on the work of improving, modernizing and keeping the whole yard in order, makes it necessary that some plan of a permanent nature must be adopted. Southbridge was one of the earliest towns to adopt the perpetual care plan. It has not received the attention it deserves. It has proved very satisfactory to those who have availed themselves of it. It is impossible to have a neat, well-kept, good-looking Cemetery with some of the lots in perfect order while the adjoining lots are ungraded and overgrown with weeds and brush. It is one of those things that calls for all to work together. Each well-cared for lot adds to the beauty of those around it. Every person who provides for perpetual care will remember that there is every reason to believe that it will continue for centuries to come. You will see that any sum thus invested will go further and last longer as a memorial to departed friends, and perhaps to yourself, than any monument you may erect. The finest monument in the world would lose much of its beauty if placed on an ungraded lot overgrown with rank grass and weeds instead of a nice, graded, well-kept greensward. A visit to any Cemetery where there is no permanent arrangement made for its care will convince you that you must not depend on those who come after you to do what you neglected to do. Benj. Franklin said: "I need only to visit the graveyard of a community to know the character of its people." Another writing on this subject has said: "Get out your wills, you who have father, mother or other dear relatives buried in the old family yard. Add a codicil leaving a handsome sum in trust for the

benefit of the old ground. You can not do a more useful act; or, if you prefer, pay the money over before you die."

I would cordially invite all lot owners to visit the Cemetery and see what is being done and make any suggestions that will help the work along. It is said there is no place on earth that comes so near the heart and homes of the people as the spot where our loved ones lie buried. Then let us all take an interest and work together in making our Cemetery, which has so many natural advantages, beautiful by keeping it near to nature, with its rocks, trees, water, flowers and greensward, a quiet, restful and peaceful place, a real God's acre.

Respectfully submitted.

SAMUEL WILLIAMS, Superintendent.

ANNUAL REPORT

OF THE

LIBRARY COMMITTEE.

LIBRARY COMMITTEE.

Remarks.

In submitting their annual report, the Library Committee are pleased to note an increasing interest in and use of the Library. Many people are just beginning to appreciate the value of the historical department, and to acquire the habit of using the card index, and to acquaint themselves with the easiest and best methods of finding subjects and desired information thereon. The literary clubs of the town have been a stimulus to the increased and profitable use of the Library, and the influence of the members of these clubs has extended to their families and friends and is causing an increased call for a higher class of literary matter, and increased reading of the same.

The continued sickness of Miss A. Jeannette Comins for the past year, has somewhat embarrassed the work of the Library, and we regret to announce that Miss Comins has, through continued ill-health, been obliged to resign her position. The Committee desire to express their appreciation of her long and faithful service in the Library, her increased interest in and appreciation of the importance of her work, and her constant regret that her health was such as not to allow her to put forth her best efforts in the duties of her position. The Committee parted from her with regret, but are, however, pleased to announce that they have secured as her successor, Miss Helen Stanley, now in her second year in the New York Library School at Albany, N. Y., who comes to us with the highest recommendations for her ability and thorough knowledge of the duties of her position. She will probably take charge of the Library in May.

The Committee also wish to express their public acknowledgment to Mr. George M. Lovell for his generous services in assisting in the care and management of the Library during the absence of Miss Comins, and for the labor he has put into the work of re-arranging and classifying some of the sections so that they may be more easily accessible to the inexperienced.

They also desire to express their appreciation of the work done by Miss Annie Plimpton, who, although without experience in Library matters, has readily adapted herself to the duties of the place and has shown great adaptability to the work, and, as we believe, been an exceedingly pleasing attendant at the desk.

In making their selections for the past year, the Committee have been largely mindful of the demand for useful books, especially for those which are of assistance in the study of history, the classics, and the higher English literature, and among the most valuable books added have been Larned's History for Ready Reference, and Bancroft's Book of the Fair, the last being profusely illustrated.

A detailed statement of the accessions, circulation of the Library, and other statistics of interest, is attached hereto.

The Committee made their annual examination February 22d, and found the Library in a satisfactory condition. They ask for an appropriation of \$1500, and the dog tax fund, as in previous years.

For the Committee,

J. M. COCHRAN, Secretary.

General Statement.

BOOKS, ETC.	March 1, 1894.	Added from March 1, 1894. to March 1, 1895.	Withdrawn from March 1, 1894, to March 1, 1895.	Number in Library March 1, 1895.

ANNUAL REPORT
OF THE
OVERSEERS of the POOR.

OVERSEERS OF THE POOR.

Outside Poor.

The Overseers of the Poor have drawn 280 orders. For the Outside, \$6,779 08; Farm and Almshouse, \$2,075 18; Repairs on Farm Buildings, \$148 84; total, \$9,003 10. The amount for the Outside is \$879 less than last year. Total expense to the town, \$5,294, which includes \$1,805 paid for the insane at hospitals; \$485 for persons having settlements in other towns; \$1,000 for the state for unsettled persons; \$342 paid other towns for persons having settlements in this town; \$94 for 939 tramps. Expenditures have been kept within the appropriations, with a credit balance of \$250 82. The Treasurer's balance will show \$184 49. This comes from a credit on the Overseers' books of \$66 33 allowed by the state and not received by the Town Treasurer from the State Treasurer, but will be paid and make the accounts agree. The amount of \$169 46 paid the hospital for Annie Monroe has been paid in full to the town by James Monroe. Inmates of the hospitals are:

Catherine Tynan,
Mary Kavanaugh,
Annie Monroe,
John Brogan,
William H. Wilson.
James Minns,
Andrew G. Ward,

Hendrick L. Smith,
Edward H. Hill,
Thomas Boyle,
James W. Ryan,
Minnie Stone,
John Coldrick,
Mrs. Albert Lovely.

For the Outside Poor we recommend an appropriation of \$5,000 for the ensuing year.

Inventory of Personal Property at the Alms- house and Farm, Feb. 28, 1895.

Class 1, Stock,	\$1,391 40	
2, Hay and grain,	165 40	
3, Carts, wagons and farming tools,	857 65	
4, Household furniture,	320 20	
5, Beds and bedding,	275 00	
6. Family supplies,	573 96	
		<hr/>
		\$3,583 61
Inventory, 1894,		3,553 30
		<hr/>
Gain over last year,		\$30 31

WILLIAM C. BARNES,
HIRAM P. MORSE,
JAMES H. MASON,
Appraisers.

Farm and Almshouse.

The amount of orders drawn. \$2,075 18, against \$2,130 10 last year, a decrease of \$54 92.

Whole number of inmates 27, with an average of 18 all the year.

The net cost \$2 05 per week, includes services of Superintendent, Matron, hired help, physician, etc. The inventory of personal property is \$3,583 61, against \$3,553 30 last year, a gain of \$30 31.

The management and care of the property by Mr. and Mrs. George F. Northup, has been to the satisfaction and approval of the Overseers, who have secured their services for another year and will commence their seventeenth year of continuous service.

The expenditures have been kept within the appropriations with a credit balance of \$407 86. For repairs of Farm Buildings, \$148 84 has been expended, with a credit balance of \$67 66 to the account.

For the ensuing year we recommend an appropriation for support of Almshouse poor of \$1,500, and \$300 for Repairs of Buildings.

Account of Cash

		\$1,910 00

Inventory of Apparatus.

The apparatus in service consists of two steam fire engines, two hose carriages, two hook and ladder trucks, one supply wagon, one portable fire escape, one life net canvas, one Siamese coupling with discharge pipe, two perfection nozzle holders, 3,400 feet of leather hose, 800 feet rubber lined hose, and the

Gamewell Fire Alarm System, which consists of two steam whistle machines, two steam gongs with apparatus necessary to operate the same, sixteen signal boxes with fourteen and one-half miles of covered number nine wire, nine gongs in the engine houses and livery stables, two standard galvanometers, sixty cups of battery with all necessary apparatus, and twelve primary batteries to operate sub-lines and clock.

Electrician's Report.

TO THE BOARD OF ENGINEERS.

Gentlemen:—The Fire Alarm system has given very little trouble this year, and has given but two unavoidable blows, one June 20, when wire broke on S. Main street, and one August 30, caused by a defective zinc.

All other irregular blows were caused while making repairs or changing wires, except on June 19 when a tapper was tampered with causing two blows at the Globe and one in the Town.

One new tapper has been added, (May 26, Assistant Engineer Flynn's house), and two boxes, No. 35, junction Charlton roads, June 27, and No. 39, Hillside Park, June 19, and would recommend the addition of a box at corner Everett and Park streets, and one on the Flat, as these parts of the town are some distance from a box, also one (1) indicator in each engine house, which would always locate the fire, even though there should be no steam. We have had twelve alarms of fire with but one general alarm, and in six cases the recall was sounded within five minutes.

The efficiency and reliability of the system would be much better if the circuit was divided into four circuits. The boxes on two circuits, one for each end of the town, and each whistle

on a separate circuit, then a break or trouble on one circuit would not disable the entire system as at present, and would greatly facilitate the finding of any trouble.

HAVE RECEIVED THE FOLLOWING SUPPLIES.

1894.

- May 19. 50 coppers, 1 coil No. 9 iron wire, 300 No. 14 copper wire.
Sept. 8. 50 zines.
Sept. 13. 470 lbs. blue vitriol.
Oct. 15. 15 zines in exchange for old zines.

1895.

- Feb. 9. 50 zines.

Battery supplies on hand March 1, 1895, 35 coppers, 64 zines, 200 lbs. copper chips, 50 lbs. blue vitriol.

Respectfully submitted,

ANDREW F. HALL,

Supt. Fire Alarm.

Southbridge, Mass., March 1, 1895.

Water Supply.

We feel it our duty to call the attention of the citizens to this question.

Last Summer, Pleasant street in Globe Village was wholly unprotected, the only resource, that of McKinstry Brook, running dry the greater part of the time, leaving property on Pleasant, River and Plimpton streets with Pleasure and New Mill Ponds as their sole protection.

New Mill Pond is, at any time, liable to be and was drawn for a large portion of the Summer.

Had a fire started in this vicinity, it would have necessitated the laying of a long line of hose, which is not practical.

We can but refer our citizens to the time of the large fire in this section. (Aug 6, 1883,) as we firmly believe, had the department the proper water supply, this fire would not have reached such magnitude.

The question of hydrants is an important item to this town, and knowing the Water Supply Co. has failed in putting them sufficiently close, in order to obtain the best possible results in protecting property, would call your attention to remarks made by the Fire Commissioners of Lynn, who, in the course of their visit to Southbridge, said they were surprised to find such magnificent buildings with so few hydrants to protect them.

In the language of Chief Hopkins of Somerville, one of the oldest and most successful chiefs in the United States, that if no more hydrants were added, Southbridge would, some day, be placed in the same predicament as Hudson, Mass.

The expense may appear large, but, that prevention is easier and better than the cure is just as true, today, as it ever was, and while opportunity for prevention offers, it seems wise that the matter be looked into.

General Remarks.

The fact of the steamers becoming disabled was the cause of great annoyance to your Board, they being condemned, as unfit for use, by the Hartford Insurance Company.

After consulting with the Selectmen, who thought it advisable to have new boilers at once, we provided a temporary steamer and advertised for bids on two (2) steam boilers, contract for same being given to Stewart Boiler Works of Worcester.

Would recommend that the sum of \$2,500 be raised to defray expense of the same, also to procure two (2) small hose carriages and hose.

This sum will allow \$1,200 for the two new boilers, and a balance to buy hose carriages, which will cost from \$75 to \$125 each, with 2,500 feet of good, serviceable, rubber lined hose.

Would ask you to consider the matter of the time lost in getting started to a fire; the past year having shown not only to the Board of Engineers, but to the citizens at large, that should two (2) small hose carriages be added to the department, a stream of water could be thrown on a fire in the center of the town and much time saved.

With the new water system it seems practicable to take advantage of the same.

No more men need be added in order to man these extra carriages, as the same men will care for them: while in laying out long lines of hose, as in the cases of the Alden and Morton fires, much valuable time was lost, in having to go back for hose.

The Steamer and Hose No. 2 were painted this year and it is the intention to paint Steamer and Hose No. 1 in order that the apparatus may be in good condition.

The matter of the new engine house being left entirely with the Selectmen, we can say little except that it is just what was needed at that end of the town, and the general opinion seems to be, that it is one of the best fire department stations in this section of the country.

As this building was not furnished, the Board of Engineers attended to the matter, which will be shown by their account.

Regarding the Fire Alarm, we have nothing but words of commendation, and consider this work worthy of the support of every citizen of the town, it being under the efficient care of A. F. Hall, whose report will give all particulars.

We would recommend that the appropriation to meet running expenses be the same as last year, \$1,200.

In conclusion would call your attention to the work done by the department during the past year.

My thanks are due the several members of the board, also to the members of the department for all good work accomplished during the year.

Respectfully submitted,

C. E. WILSON, Chief Engineer.

GEO. J. LAMOUREUX, Clerk.

ANNUAL REPORT
OF THE
SCHOOL COMMITTEE.

OFFICE OF SCHOOL COMMITTEE,

SOUTHBRIDGE, March 13, 1895.

The Chairman and Superintendent presented the annual reports for the school year ending March 2, 1895.

Voted to accept the reports and adopt them as the report of the Committee.

Special Teacher of Drawing, Eva Benham.

Report of School Committee.

TO THE CITIZENS OF SOUTHBRIDGE:

"Our Common Schools, our Country's Hope" is a sentiment worthy of being impressed on every heart. A public system of education free to all classes is certainly one of the principal safe-guards of Liberty, a perpetual fountain of intelligence, virtue and strength, pouring streams of life and blessing into every household of the land. We need as citizens to realize that all other municipal interests are small in comparison with this. Especially we need to feel our individual responsibility. The character of the coming generation, to whom are soon to be entrusted all the interests of State and Nation, depends almost wholly upon the faithful discharge of our individual duties as citizens and parents. We cannot throw off responsibility by saying "The Town will take care of the Schools." Individuals make the Town, and the welfare of the children can be secured only as individual parents attend personally to the matter.

Your Committees for fifteen or more years have been continually urging the necessity of better accommodations. Indifference and opposition have hitherto prevailed to prevent action. The need is more pressing than ever before. Good citizenship demands of every one an earnest effort to secure the immediate erection of a school building such as was recommended by your special Committee of two years ago.

To provide commodious, well-furnished buildings, good teachers, suitable supervision, and generous supplies to meet running expenses is the *sine qua non* for all schools. Citizens who have done this have so far done well. But parents especially should remember that this is not all. Beyond this, in the management of their children, and in their personal relations to the schools:

and the teachers, they can do very much to help or hinder success. They should cultivate friendly relations with the teachers, and place confidence in them, assuming, as a matter of course, that they are seeking the best welfare of the pupils. Parents can never be justified in speaking ill, or slightly of teacher or Superintendent in the presence of their children. To do so is to inflict a life-long injury on the child, and oftentimes to bring disaster to the school. Children should never be permitted to tell at home anything unpleasant occurring in school, except what concerns their own conduct and success. Parents are entitled to know, and should take pains to know, all that pertains to their own children both in scholarship and deportment. If these are unsatisfactory, they should at once seek a remedy. In all cases of faulty deportment, and in most cases of defective scholarship, the difficulty is with the pupil himself, and parents have far more power than teachers to remedy these evils. With the too frequent opposition of parents the best teachers are rendered almost helpless.

"To err is human," and teachers are no exception to the rule. But parents should never catch up flying reports, nor accept without investigation the statements of the most truthful children. Conscientious pupils often fail to see or understand the exact facts as the teacher knows them. Not unfrequent complaints are made by parents when their children are disciplined, because definite charges of some specific act are not furnished. They fail to realize what every experienced teacher is familiar with, that pupils frequently deserve the severest discipline although no particular offence can be specified. The general tone and spirit of a child is often so insolent and unruly as to do more harm in a school than many specific acts of insubordination. The greatest perplexity arises when considerate parents, after candid and thorough investigation, become convinced that a teacher is unjust or unwise in discipline, or incompetent as an instructor. In the former case, a full and friendly expression to the teacher in regard to what seems to be

wrong, manifesting only a sincere desire for what is right, will nearly always secure the desired result. When this fails, or in case of apparent incompetence, parents should make a complete and candid statement of facts to Superintendent or Committee, remembering however, that only in rare circumstances can remedies be immediately effective. Forbearance and patience are needed while time is allowed to accomplish the work. These suggestions may seem to some too obvious to require expression here. But experience teaches that we all do need to be reminded again and again, of the simplest and most primary truths.

We believe there is progress in the schools from year to year, for which great credit is due to the faithful assiduity of our Superintendent. Neither rashly changeable, nor stupidly conservative, he brings into practice, as far as present means and accommodations permit, the best suggestions of the wisest educators of today. We believe the Town has made no wiser or more paying investment than that by which we have secured and retained his valuable services. Advance, not by sudden revolution, but by healthy growth, is the constant aim of both Superintendent and Committee.

The following statement shows how the money at our disposal has been used, together with estimates for the coming year.

Financial Statement.

High School.

Your careful attention is invited to the more particularized and specially important facts contained in the Superintendent's Report herewith presented.

Respectfully submitted,

In behalf of the Committee,

SILVANUS HAYWARD, Chairman.

Southbridge, Mass., March 13, 1895.

Superintendent's Report.

FOR 1894-5.

GENTLEMEN OF THE SCHOOL COMMITTEE:

The report of the schools herewith submitted is the tenth of the series of annual reports of the Superintendent and the ninth of the present incumbent.

Summary of Statistics.

Population of the Town, State census, 1890,	7,747
Valuation of the Town for 1894,	\$3,521,452 28
Number of children between 5 and 15 years of age,	1,731
Number enrolled in public schools during the year,	1,115
Number under 5 years of age,	16
Number over 15 years of age,	89
Number between 5 and 15,	1,010
Number between 8 and 14,	546
Average number belonging,	777.48
Average daily attendance,	728 22
Per cent. of attendance,	93 66

Cost Per Pupil.

Current expenses, including teaching, fuel and care of buildings,	\$14,296 45
Cost per pupil, based on total enrollment,	12 82
Cost per pupil, based on average enrollment,	18 52

Total expenditures, less permanent repairs,	16,317 45
Cost per pupil based on whole number,	14 63
Cost per pupil, based on average enrollment,	20 98
Cost per pupil in High school,	37 61

Through the courtesy of the instructors we are able to give the following statistics of the parochial schools:

Number enrolled at the Notre Dame Parochial school,	673
Average number belonging,	583
Average attendance,	572
Per cent. of attendance,	98.11
Total enrollment at St. Mary's Parochial school,	160
Average number belonging,	156.50
Average attendance,	147
Per cent. of attendance,	94.50

Attendance by Schools.

Attendance Roll of Honor.

List of pupils reported as perfect in attendance, neither absent nor tardy during the year. Others have always been in their places except when detained by illness:

Ernest Herron,	Eva Conner,	Emily Haynes,
Ethel Seavey,	Herbert Ellam,	Arthur Nichols,
Lillie Macnie,	Maude Barrett,	Flossie Bartlett,
Herman B. Morse,	Katie O'Halloran,	Linne Tetrault,
Edmund Dupaul,	Charles Sartie,	Frank Smith.
		School Street.

Perfect in attendance two terms:

Clifford Chamberlain,	Joseph Blanchard,	George Edwards.
William Henry,	Robert Sanders,	Amity Angell.
Ruth Chamberlain,	Edith Dougherty,	Lizzie Kelly,
Alice Sanders,	Jennie Simpson,	Cora Longeway,
Arthur Lacroix,	John Coggans,	Alice Farland,
Peter Caplette,	Alfred Gaumont,	Marion Hill,
Hattie E. Dougherty,	Annie McFarland,	Harry Ferron,
Deborah Fallows,	Angelina Bachand,	Minnie Cook,
Rosa Chapdelaine,	Thomas Taylor,	Marion E. Morse,
Albert Wilson,	Eugene Tetrault,	Adelor Robidoux,
Benadetta Bordeau,	Mary Baton,	Albert Demarchais,
George Lamothe,	Willie Smith,	Joseph Fallows,
Carrie Irons,	Leva Tremblay,	Mary Metevier,
Arthur McKinstry.		

113 others have been perfect in attendance one term.

The May enrollment of the children of school age, as was anticipated, showed a less number than the previous enrollment. The return was 1731 against 1783 the previous year. Not a few families whose bread-winners were thrown out of employment had sought work elsewhere, as the vacant tenements in different parts of the town indicate. The total number enrolled in the schools during the year is 72 less than in the year

1893-4, but the average number belonging is 32 more, and the average attendance 33 in excess of the previous year. The per cent. of attendance has been improving each year, and this year shows an advance. Many of the teachers by persistent attentions to regularity of attendance, secure for their schools results highly commendable. Seven of the schools show a per cent. of attendance for the year above 95.

The virtues of regularity and promptness in attendance can not be kept too constantly before the minds of teachers and pupils. The school that succeeds in promoting the growth of these virtues gains an important element of life and power in the subjects of study. All parents do not realize that prompt and regular attendance is a necessary condition of satisfactory progress.

The truant officers have rendered efficient service to the teachers in visiting families, looking up absentees, and, in many cases, returning delinquents to their places in the schools.

Evening Schools.

The work of the Evening schools did not differ materially from that of previous years. The general management of the schools showed the value of experience in dealing with this class of pupils. The instruction was confined to reading, writing and, incidentally, to the correct use of language, the limited knowledge of the English language of most of those attending necessarily restricting the instruction to very narrow bounds. Most of the teachers were those employed in the day schools, bringing to their work the experience and methods of skilled teachers. The term continued 14 weeks, each school having about 40 sessions. Four members were present every evening: eleven, every evening but one: sixteen were absent twice, seventeen, three times; fifteen lost four nights, and fourteen

five nights. One-third of the whole number enrolled were absent not more than five evenings.

Number of schools.	4
Number of teachers employed,	6
Number of pupils enrolled, boys, 131, girls, 101, total.	232
Members, who attended 70 per cent. of the sessions.	164
Average number belonging.	178.03
Average attendance.	163.25
Per cent. of attendance,	91.70
Total cost of schools for the season.	\$596.61
Cost per pupil.	\$2.57

Repairs.

For certain repairs and changes at the school-houses—mentioned in our last report—an appropriation of \$500 was made in addition to the usual amount for ordinary repairs.

The largest amount was used at the Main street building in changing the closet system and connecting with the Sewer. This was done at a cost of \$595.21.

The Elm street and School street houses were re-painted on the outside. The one at a cost of \$65.20, the other, \$106.75.

The tin roofs of the Main street, the Elm street and the Carpenter buildings were re-laid, the entire cost being \$237.47.

As usual, the cost of these repairs and changes exceeded the estimates given, the total amount being \$1,004.63.

The School-Houses.

Of the eleven school-houses in town, five now have approved systems of warming and ventilating and sanitary closets. The six other buildings are heated, after the old fashion, by box stoves, and have no means of ventilation except by doors

and windows. Four of these are small, one-room buildings with a small number of pupils. Of the other two, the one on River street has four rooms, the two lower rooms of which are occupied by day schools, and the upper rooms are used for Evening schools. The school house at Union street has two rooms, one of which is used for the Intermediate grade of the group of schools at Globe Village.

Each of the schools in these six buildings has a number of pupils requiring by the statutes, approved sanitary conditions. It devolves upon the committee to determine the changes needful to supply proper sanitary conditions to such of these school-houses as are likely to be continued in use.

The crowded condition of the Main Street Intermediate and the Elm Street Higher Primary made it necessary in September to form an overflow school to relieve these two rooms. With the consent of the Selectmen, the room over the Superintendent's office at the Town Hall, was furnished and twenty-six pupils transferred to it. The schools thus relieved still have each an unreasonable number of pupils for one room. There are now two schools at the Town hall with 65 pupils, in rooms not designed for school rooms.

The present status of our school accommodations emphasizes the pressing need of immediate action relative to the new building. Each year the demand is more urgent, and the interests of the schools require that there should be no further delay.

Ample accommodations for the village schools would open the way to important advances in other directions—matters which I have refrained from urging upon attention so long as this most pressing need was unprovided.

One immediate result of a new central building would be a more satisfactory classification, making it practicable, by having only one year's pupils in each room, to arrange classes in half year grades, thereby greatly simplifying the matter of grading and promotions, and a saving of time to many pupils.

It would also, admit of departmental teaching to some extent if that plan seems advisable.

Ample room at the centers of population would present the question of consolidating some of the schools—the expediency of transporting pupils to the nearest village class of the same grade, thereby closing some of the small schools in the out districts. This is done in many towns of the commonwealth with results highly satisfactory to those most interested—affording better opportunities to the pupils, and materially reducing the expenses of supporting the schools.

Were this great need met, it would be proper to urge attention to the establishment of one or more kindergarten schools, for which there appears a growing demand. These schools have long held a place in the public school systems of the cities, and are being established in many of the larger towns, and in some towns of less population than Southbridge.

It would be practicable in a new building, to so arrange the basement as to give room for work in Manual Training—a feature of education rapidly gaining in favor, and required by law in cities of twenty thousand inhabitants. Those most familiar with this element of training believe that two or three hours work every day for pupils in the grammar and high school grades is promotive of studious habits, of good morals, and manly character.

In a recent report the Kindergarten, Manual Training and other features of progressive school-systems were considered at some length.

I take pleasure in presenting the following reports from the Principal of the High school and the supervisor of Drawing.

Report of the High School.

MR. J. T. CLARKE, SUPERINTENDENT OF SCHOOLS:

Dear Sir:—I have the honor of presenting to you a report of the High school for the year 1894-95.

There have been eighty pupils connected with the school during the past year against eighty-five of the previous year: the smaller number attending is owing to the large size of the last graduating class, fourteen, and the small number in our Sophomore class. Of the graduating class one entered Holy Cross, and one entered Amherst on certificate of the school. One pupil also entered Smith on certificate at the end of a three years course.

Of the class of '95 one will enter Amherst and two the Boston School of Technology. The number preparing for the higher institutions is gradually increasing, but what is most needed is a heartier co-operation of the parents. Most of the school period is devoted to recitations and it is self-evident that considerable time must be devoted to home study. The fact that a pupil does no work at home is proof that he is not deriving all the benefit he should from his school course, although he may be able to attain the required sixty per cent. and graduate with his class. The main advantage of the private school consists in the fact that pupils are obliged to study from seven till nine in the evening.

In accordance with the custom of recent graduating classes in leaving some memento to beautify the school-room, the class of '94 presented the school with an eight-day clock.

The custom tends to increase both the interest of the graduates in the school and render the room more cheerful and attractive for the attending pupils. I believe that the four classes now in school each plan to continue this custom.

The change in time of graduation from March to June puts us in line with other schools and stops the trouble that has occurred nearly every year in classifying pupils moving here from other towns.

During the past year I have arranged and labelled the mineralogical specimens belonging to the school and have the pleasure of acknowledging the following gifts: Seventeen specimens from Mr. F. R. Arnold; twelve from Mr. A. M. Cheney; eight from Mr. J. T. Clarke; four from Miss Annie Goodrich; also some twenty from various pupils. These specimens have been in almost daily use in connection with natural science teaching, and I trust form the nucleus for a much larger collection.

Miss Goodrich, with the assistance of her class in Botany, has begun an herbarium, and seventeen specimens were pressed and arranged last spring. I think that in a few years we shall have a complete collection of the flora of Southbridge.

The course of study was changed at the beginning of the school year and arranged in accordance with the "Report of the Committee of Ten" and I take pleasure in recording the fact that we were the first country High school in the state to adopt the suggestions of this committee in our courses of study.

The English course has been arranged to meet the requirements of those pupils who lack the ability or application required to learn Latin. Of the last entering class, four have taken the classical and twenty-eight the general course.

Respectfully submitted,

F. E. CORBIN.

Course of Study.

GENERAL

FIRST YEAR.

Latin,	5 periods.
Algebra,	5 "
History,	3 "
Rhetoric,	2 "
Phys. Geography,	3 "
Reading,	2 "

SECOND YEAR.

Latin,	5 periods.
Mathematics,	5 "
History, Civil Govt.,	3 "
Physics,	3 "
Botany,	2 "
Reading,	2 "

THIRD YEAR.

Latin or French,	5 periods.
English Literature,	3 "
Chemistry,	3 "
Bookkeeping,	2 "
Astronomy,	2 "

FOURTH YEAR.

Latin or French,	5 periods.
Rhetoric,	3 "
Geology, half year,	5 "
Economy,	5 "
Arithmetic,	2 "

CLASSICAL COURSE.

First year same as general course.

SECOND YEAR.

Greek,	5 periods.	Mathematics,	5 periods.
Latin,	5 "	History, Civil Govt.,	3 "

THIRD YEAR.

Latin,	5 periods.
Greek,	5 "
Roman History,	3 "
English Literature,	3 "

FOURTH YEAR.

Latin,	5 periods.
Greek,	5 "
Greek History,	3 "
Rhetoric,	2 "

English course same as general with the exception of Latin.

Singing is required of all throughout the course. and Drawing for the first two years.

MR. J. T. CLARKE, SUPT. OF PUBLIC SCHOOLS:—

I found here a well established course in drawing, with plenty of material furnished, proving to me that the Board of Education had recognized the value of drawing as an educational element, and had furthered its cause by providing a capable instructor, and wisely given her materials and the power to use them as she deemed best.

The exhibit in June must have plainly told its own story. There are some difficulties, peculiar to the town, which make it, at present, impossible to secure a uniform grade of work throughout the town. Some understand very little of what the instructor says, yet the French children have a keen appreciation of color, and are very quick with anything to be expressed directly by means of the fingers. The grade work needs to be brought to a higher standard as soon as possible. Good order in the class-room, faithful work by instructor, the co-operation of teachers, and honest individual effort on the part of pupils will soon accomplish such desired result. The more the drawing is used as an aid in other studies, the better for the pupil and the class as a whole.

I have endeavored to give to the High School Freshman class a fair outline of Historic Ornament, which should come in their grade in connection with the study of Ancient History. Previously, I have given more facts in a series of talks, but it seemed impracticable to do the same here.

I find in the assembly-room a fine picture of St. Marks, Venice, the best example of Italian Byzantine architecture. I wish there were more of such. Last year I was substitute for the Professor of Drawing at the Iowa State Normal school, and the President allowed me to purchase photographs of the best examples of classic architecture including those taken from ruins in Egypt, Greece and Rome; four were mounted on one card and framed. I wish the same might be purchased for the High school here, gradually, if the expense is too great to incur at once; and I earnestly request that you place one good repro-

duction of a masterpiece in art, in each class-room, the same to be changed occasionally throughout the town. Let students have one such before them always in the room, and its influence will be apparent. The simple casts you allowed me to purchase for the Sophomore class are appreciated by them.

Thanking you and all the regular teachers, through you, for kindness and co-operation, I remain,

Yours respectfully,

EVA BENHAM.

Schedule.

Monday, a. m., School street, 2. Union street, 1.
p. m., Carpenter school, 2.
Tuesday, a. m., Main street, 4.
p. m., Elm street, 2. Town hall, 1.
Wednesday, a. m., School street, 4.
p. m., River street, 2. Union street, 1.
Thursday, a. m., Town hall, 1. High school, 2.
p. m., Main st., 3.
Friday, p. m., District school.

At the close of the Summer term an exhibit was made at the Town Hall of selected specimens of work in Drawing, Nature studies, Kindergarten and a variety of other class exercises. This exhibit was highly creditable to pupils and teachers, and called forth hearty expressions of commendation from the large number of visitors from our own, and neighboring towns.

In the summer, Miss Patterson, who for two years had been Supervisor of the Department of Drawing in our schools, resigned to accept, at much higher salary, a similar position at

Portsmouth, N. H. Miss Patterson had systematically organized the work of her department, and it was with regret that her resignation was received. We were especially fortunate in securing, in September, the services of Miss Eva Benham to continue this work. Miss Benham had had years of successful experience, and is conducting the department with ability. We would call special attention to the suggestions in her report, and hope that her recommendations will result in favorable action.

The action of the School Committee last October, in changing the time of closing the school year from the end of the winter, to the end of the summer term, brings our school year in harmony with the schools generally throughout the state, and will avoid difficulties so often met in adjusting pupils coming from other towns, to the classes in our schools. The extra term of this year, affords an excellent opportunity of introducing some of the features of the "Report of the Committee of Ten," thereby giving the Grammar classes a foretaste of some of the High school subjects of study.

I take pleasure in reporting a steady and healthful growth in the most of our schools. In some lines improvements have been made which give promise of an increasing degree of efficiency. In a large proportion of our class-rooms are found well-conducted schools. A well-ordered school is one where there appears little or no attention to matters of discipline, while every pupil is busy with the work in hand, and nothing else. The teacher is enthusiastic, and the pupils interested and attentive.

In conclusion, I once more thank you for your continued confidence and liberal support, and would record my acknowledgment of the uniform kindness and hearty co-operation of the teachers in the work of the year.

Respectfully submitted,

J. T. CLARKE, Superintendent.

Calendar 1895-6.

Spring Term, 15 weeks, begins Monday, March 11, ends June 28, 1895. Vacation one week ending April 6.

The Fall Term begins Tuesday, September 3, ends December 20, 16 weeks.

Winter Term begins January 6, 1896, ends March 6.

Spring Term 1896, 15 weeks begins Monday, March 9, ends June 26. Vacation one week ending April 4.

The First and Third Terms, the Common schools close one week earlier than the High schools.

HOLIDAYS.

Every Saturday; Washington's Birthday; Memorial Day; Labor Day; Thanksgiving and the day following.

Extracts from the Public Statutes.**LAWS OF 1894.**

SECTION 1. Every person having under his control, a child between the ages of eight and fourteen years, and in every city and town where opportunity is furnished, in connection with the regular work of the public schools, for gratuitous instruction in the use of tools or in manual training, or for industrial education in any form, a child between the ages of eight and fifteen years, shall annually cause such child to attend some public day school in the city or town in which he resides, and such attendance shall continue for at least thirty weeks of the school year, if the schools are kept open for that length of time, with an allowance of two weeks' time for absences not excused by the superintendent of schools or the school committee. Such period of attendance shall begin within the first month of the fall term of school, and for each five days' absence of any such child thereafter, in excess of the above allowance, before the completion

of the required annual attendance of thirty weeks, the person having such child under his control shall, upon the complaint of the school committee or any truant officer, forfeit to the use of the public schools of such city or town a sum not exceeding twenty dollars, but if such child has attended for a like period of time a private day school approved by the school committee of such city or town, or if such child has been otherwise instructed for a like period of time in the branches of learning required by law to be taught in the public schools, or has already acquired the branches of learning required by law to be taught in the public schools, or if his physical or mental condition is such as to render such attendance inexpedient or impracticable, such penalties shall not be incurred.

SECT. 2 For the purposes of the preceding section, school committees shall approve a private school only when the teaching in all the studies required by law is in the English language, and when they are satisfied that such teaching equals in thoroughness and efficiency the teaching in the public schools in the same locality, and that equal progress is made by the pupils therein, in the studies required by law, with that made during the same time in the public schools; but they shall not refuse to approve a private school on account of the religious teaching therein.

SECT. 3. The truant officers and the school committee of the several cities and towns shall vigilantly inquire into all cases of the neglect of the duty prescribed in section one, and ascertain the reasons, if any, therefor; and such truant officers or any of them shall, when so directed by the school committee, prosecute in the name of the city or town any person liable to the penalty provided for in said section. Police, district and municipal courts, trial justices and judges of the probate court, shall have jurisdiction within their respective counties of the offences described in section one.

SECT. 4. All children within the Commonwealth may attend the public schools in the place in which they have their legal residence, subject to the regulations prescribed by law.

SECT. 9. The school committee shall not allow a child who has not been duly vaccinated to be admitted or to be connected with the public schools.

SECT. 10. The school committee shall not allow any pupil to attend the public schools while any member of the household to which such pupil belongs is sick with small-pox, diphtheria, or scarlet fever, or during a period of two weeks after the death, recovery, or removal of such sick person; and any pupil coming from such household shall be required to present, to the teacher of the school the pupil desires to attend, a certificate, from the attending physician or board of health, of the facts necessary to entitle him to admission in accordance with the above regulation.

ANNUAL REPORT

OF THE

BOARD OF SELECTMEN.

THE NEW YORK PUBLIC LIBRARY

ASTOR LENOX AND TILDEN FOUNDATIONS

327 5th Ave. New York City

1911

SELECTMENS' REPORT.

We submit below a report of the Selectmen for the past year.

The year has been one of quietness, and all matters pertaining to the interests of the town have moved along satisfactory to the board, the only event to disturb being the sad railway accident on Thanksgiving Day, which has caused profound sorrow throughout our midst. It has been our aim to use the funds intrusted to our care with the same economy as if it was our own, without doing injustice to any one, and feel we have done so. Some few accounts have been overdrawn in consequence of unexpected repairs being needed, which will be explained under the headings, appended to our report.

Highways.

There is no account where the proper expenditure of money can bring to the town greater prosperity than this, for with good roads approaching our center and good streets, much benefit is derived by all business interests. Money can be spent to good purpose or wasted in this department according to the way the work is done and conducted. The highways in some portions of the town were in need of extensive repairs, and we feel satisfied the work done on all the roads this year is well done, and the same repairs continued another year would put them in very creditable condition.

For our ordinary roads we recommend the use of gravel, of which we have a good supply; in some cases the hauling is expensive, still we are more highly favored than many towns in this respect.

The condition of Main and Hamilton streets should be improved, and after much thought regarding the best plans to adopt, we have decided that this main thoroughfare should be Macadamized, beginning on Main street on a line with Central street to the railway station, and we therefore recommend starting at the point above named, this year, to Macadamize this portion of the town. Our idea is to raise and appropriate the sum of \$2,500 to be used for this specific purpose, and each year to appropriate an equal amount or more if advisable, and in a short time we would have a road-bed which would be good for twenty years, without any outlay practically for repairs and the burden would not be felt by the town. We shall be fully prepared to give information regarding the cost of material delivered at Southbridge, also cost of construction, and are satisfied by procuring the stone from quarries which are uniform in quality, we shall get a more even surface than stone from our own fields or ledges. This article will appear in the Warrant, and we trust the town will act wisely, as the heavy teaming on this portion of our highways demands a decided improvement. We recommend the sum of \$6,000 for Highway repairs.

Contingent.

The name of this account signifies the object for which it is intended. We are pleased to report it has been favored by reasonable demands and were it not for the amounts paid out in connection with the railway accident, it would still make a more favorable showing. Because of the uncertain contingencies which may arrive we recommend the sum of \$2,000 for this account.

Sidewalks.

This account is slightly overdrawn in consequence of the general repairs made on our concrete walks, many of which have been restored to good condition and will now last for some time without expensive repairs. The brick walks generally are in poor condition and most of them will have to be re-laid with new brick or concrete, and others repaired. We recommend the sum of \$1,500 for sidewalk repairs.

Railings.

The condition of our railings mostly on the highways outside the center of the town, are in poor condition and should be put in repair as early as practicable to insure the town against the danger likely to occur by accidents, one of which would cost the town many times the expense of thorough protection. A few places where railings have not been placed should be protected. We recommend the sum of \$500 for this account.

Bridges.

The appropriation of \$700 made at the annual meeting was intended principally to repair the iron bridge at the Globe, and such slight repairs as might be needed in other parts of the town. The iron bridge was found in bad condition, but was thoroughly repaired and restored. We think it is good for many years to come. Upon examination it was found that the Mill street bridge was absolutely unsafe and worthless. This we had to rebuild new throughout. The large bridge at Sandersdale was found to be in a dangerous condition, in fact, unsafe. Steps were taken at once to repair it, but as the work progressed it was found to be worse than first examination showed and

should have been rebuilt new. We decided to repair it thoroughly and consider it good for several years. Other bridges were rebuilt and repaired, the whole causing an expenditure of over \$2,000. The public may rely upon the safety of our large bridges for some time to come. We recommend the sum of \$200 for this account.

Fire Department.

This department has responded promptly to its duties, and are to be commended for the services they render. It has recently been discovered by inspection that both fire engines needed new boilers, and same are now being made, which will put the steamers in fine order when completed. The appropriation for this department will necessarily be larger than usual on this account. We recommend \$2,700 for this account.

Insurance.

The appropriation made for this account was not sufficient last year. It will be necessary to raise the sum of \$800 for insurance, and we recommend that amount.

Town Hall Contingent.

We recommend that the sum of \$1,000 be raised for this account in addition to the school fund of \$500, making a total of \$1,500.

Militia.

The usual amount paid by the state for the rent of the armory has been \$400. The state treasurer paid us only \$300

for the past year, and this is the amount we shall receive for the coming year, as it is claimed the accommodations are not adequate for the new drill of the militia and consequently not worth the amount hitherto paid.

War Relief.

The usual call for assistance by the families of soldiers in need has been granted with as careful consideration as possible. We recommend the sum of \$1,000 for this account.

Street Lights.

We recommend for this account the sum of \$6,300.

CALVIN CLAFLIN,
THOMAS SANDERS,
O. B. E. CHIPMAN,

Selectmen.

ANNUAL REPORT
OF THE
SINKING FUND COMMISSIONERS.

SINKING FUND.

The Sinking Fund Commissioners respectfully present
their report as follows :

RECEIPTS.

Balance March 1, 1894.	\$46,295 35
Sewer assessments,	2,143 00
Interest,	1,753 92
Interest received from City Institution for Savings, Lowell,	40 00
Corporation tax.	130 64
	<hr/> \$50,362 91

INVESTMENTS.

Amherst Savings Bank.	\$1,286 83
Abington Savings Bank,	465 00
Andover Savings Bank.	1,177 26
Athol Savings Bank,	1,171 62
Arlington Five Cents Savings Bank,	1,126 14

Board of Health.

The Board of Health respectfully submit the following report for the year 1894-95.

The sanitary condition of the town has been quite good, as made evident by the comparatively few cases of typhoid fever, diphtheria, and other filth diseases. The village is admirably situated, by reason of the slopes of its hills, for a rapid and thorough drainage. A moderate expense and care would make it one of the most healthful settlements in our Commonwealth. While the Board of Health can deal with only the most open and flagrant violations of sanitary laws, the intelligent co-operation of householders is needed to make the sanitary conditions perfect. Anything that offends a refined sense of sight or smell is very apt to be dangerous to health and life. This is certainly true in the case of sinks and vaults. Every sink should be efficiently trapped. The practice of throwing slops and garbage into vaults is a too common one, and is to be unreservedly condemned. Dry earth or coal ashes, daily sprinkled over the contents of vaults, will efficiently deodorize them; and would, doubtless, prevent much sickness.

All cases of scarlet fever have, as far as possible, been isolated. The cases reported have been few as compared with the number during the previous year. A few cases of a mild type, not reported by attending physicians or householders, have been brought to the notice of the Board. Doubtless, there have been others not reported and not known. The Board would call the attention of physicians and of others to the fact.

that the danger of infection from a mild case of disease is as great as from that of a more severe or malignant type. There has been no case of other contagious or infectious disease reported.

The complaints brought to the Board have been few, and the causes of these have, as far as possible, been remedied.

The provisions of Chap. 445 of the Acts of 1894 have been complied with, and a Board of Examiners of Plumbers have been appointed with full power to examine and duly license plumbers and to inspect all plumbing. The report of this Board will be found in its appropriate place.

DEATHS AND THEIR CAUSES.

Acute Alcoholism.	1	Chorea,	1

Warrant for Town Meeting.

APRIL 1, 1895.

WORCESTER, SS.

To either of the Constables of the Town of Southbridge, in the
County of Worcester.

GREETING:

In the name of the Commonwealth of Massachusetts you are hereby requested to notify the inhabitants of the Town of Southbridge, aforesaid, qualified to vote in elections and town affairs, to meet in the Town Hall in said Southbridge, on Monday, the first day of April next, at 9 o'clock in the forenoon, to act on the following articles:

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To choose all necessary town officers for the ensuing year, viz: Clerk, Treasurer, Selectmen, Overseers of the Poor, Board of Health, Assessors, School Committee, Auditors of Accounts, Cemetery Committee, Library Committee, a Sinking Fund Commissioner and Constables.

ART. 3. To vote by ballot "Yes or No" in answer to the question, "Shall license be granted for the sale of intoxicating liquors in this town."

ART. 4. To hear the reports of the Auditors of Accounts, Treasurer, Clerk, Selectmen, Library Committee, and act thereon.

ART. 5. To raise and appropriate such sums of money as may be necessary to pay town debts and charges, the ensuing year, or act thereon.

ART. 6. To see if the Town will allow a discount on taxes, paid within a certain period, or act thereon.

ART. 7. To see if the town will authorize the Treasurer to borrow such sums of money in anticipation of taxes, as will be found necessary to meet the current expenses of the year, or act thereon.

ART. 8. To see if the town will accept the list of Jurors as posted and presented by the Selectmen, or act thereon.

ART. 9. To see if the town will vote to pay the engine men for the ensuing year, or act thereon.

ART. 10. To see if the town will raise and appropriate money for the observance of Memorial Day, or act thereon.

ART. 11. To see if the town will vote to pay an Electrician for the ensuing year, or act thereon.

ART. 12. To see if the town will fix the compensation of town officers, laborers and teams for the ensuing year, or act thereon.

ART. 13. To see if the town will raise and appropriate money for the support of the militia, or act thereon.

ART. 14. To see if the town will vote to authorize the Treasurer to transfer from unappropriated funds the sum of \$444.37, (four hundred and forty-four dollars and thirty-seven cents) to Pine street walk, and \$275.94, (two hundred and seventy-five dollars and ninety-four cents) to repairing Crane street, or act thereon.

ART. 15. To see if the town will raise and appropriate money to pay the Water Supply Co. for the use of hydrants and drinking fountain for the ensuing year, or act thereon.

ART. 16. To see if the town will raise and appropriate money for street lights, or act thereon.

ART. 17. To see if the town will vote to accept the report of the Selectmen laying out Dresser street, beginning at the east end of the western section of said street, going easterly over land of Mrs. Ellen J. Bartholomew, to west end of eastern section of said street. Raise and appropriate money therefor, or act thereon.

ART. 18. To see if the town will vote to Macadamize Main and Hamilton streets, or any portion thereof. Raise and appropriate money therefor, or act thereon.

ART. 19. To see if the town will vote to establish an arc electric light on Crane street, at the depot, or act thereon.

ART. 20. To see if the town will establish and maintain an arc electric light at the corner of Everett street and the private way leading to Elm street, past Curboy's shop. Raise and appropriate money therefor, or act thereon.

ART. 21. To see if the town will vote to establish an arc electric light on the road leading over the hill to Sturbridge, off West Main street, to be placed on south side of road fifty feet east of oak tree, between the residences of Thos. Ryan and E. F. Surprenant. Raise and appropriate money therefor, or act thereon.

ART. 22. To see if the town will vote to establish an arc electric light at the corner of Benefit and Lens streets. Raise and appropriate therefor, or act thereon.

ART. 23. To see if the town will vote to establish an arc electric light on Chapin street, between Main and Dresser streets. Raise and appropriate money therefor, or act thereon.

ART. 24. To see if the town will raise and appropriate money to repair and enlarge the Police station, according to the plans and estimates presented by the Selectmen, or act thereon.

ART. 25. To see if the town will accept the report of the Selectmen, laying out a town way between Everett street and Elm street, over land of Wm. Curboy and Sylvester Dresser. Raise and appropriate money therefor, or act thereon.

ART. 26. To see if the town will vote to appropriate the sum of seventy dollars (\$70.00) for an electric fire alarm box, to be placed at the corner of Everett and Park streets, or act thereon.

ART. 27. To see if the town will vote to build a gravel walk on the north-west side of the road, from the Central street bridge to the four tenement house of H. A. Morse, on the Charlton City road. Raise and appropriate money therefor, or act thereon.

ART. 28. To see if the town will raise and appropriate the sum of twenty-six thousand dollars (\$26,000.00), to build a

new eight room school-house in accordance with plans herewith presented, or act thereon.

ART. 29. To see if the town will vote, that all printing amounting to ten dollars or more, shall be under the direction of the Selectmen, or act thereon.

ART. 30. To see if the town will vote to establish a uniformed police force, for day and night service. Raise and appropriate money therefor, or act thereon.

ART. 31. To see if the town will vote to purchase a stone crusher and steam roller for use in Macadamizing our streets. Raise and appropriate money therefor, or act thereon.

ART. 32. To see if the town will raise and appropriate a sufficient sum of money to mark the graves of Revolutionary Soldiers, buried within the limits of the town, or act thereon.

And you are directed to serve this warrant by publishing an attested copy thereof twice in the Southbridge Herald, Journal and Press, the first publication being not less than nine days next preceding the day of the meeting,—or by posting up such attested copies in four conspicuous public places within the town, at least nine days, including Sundays,—before the day of holding said meeting. The polls will be open at nine o'clock a. m., and close at three o'clock p. m.

Hereof fail not, and make due return of this warrant with your doings thereon to the Town Clerk at the time and place hereinbefore named.

Given under our hands this nineteenth day of March, A. D. 1895.

CALVIN CLAFLIN,
THOS. SANDERS,
O. B. E. CHIPMAN,

Selectmen of Southbridge.

A true copy. Attest:

M. L. DILLABER, Constable of Southbridge.

County tax,		3,784
		<hr/> \$70,379

In making up the valuation of the town, the list of which is here submitted for your inspection, the Assessors have endeavored to make the burden of taxation as nearly equal as possible. We would herein recommend that the Town at no distant day, have a map made of the centre and Globe Village districts, giving number of feet of land and location of property owners, which would greatly facilitate future boards in making up your town valuations and remove all possibility of an injustice being done to anyone in regard to land measurements. etc.

FRANKLIN JACOBS,	} Assessors.
V W LAMOUREUX,	
S K EDWARDS,	

Through the courtesy of Mr F P Pratt we are able to publish the first voting list of the town of Southbridge—and a few other facts of the year 1816 that we hope may prove interesting:

A

Ammidown, Luther
